

World Energy Congress: Rome 2007 Youth Programme

THE NEW 'A' PLUS OTHER LEARNING EXPERIENCES

5 March 2008

“...be the change you wish to see in the world...” – Gandhi

“...the world needs more actors not critics...” – Bill Spence, Shell

[Introduction]

- The new 'A' - Accountability
- 20th World Energy Congress
- 4000+ participants
 - 3000 delegates, (200+ youth delegates)
 - 1000 journalists
- Conference facility

[NZ Youth Delegates]

New Zealand Youth Delegates - WEC Rome 2007

[Presentation overview]

- **A**ccessibility
- **A**vailability
- **A**ceptability
- Closing Remarks

[Accessibility]

- Accountability applied to Access
 - In New Zealand
 - In the Pacific

- Energy in the Pacific
 - Development for life – Training and Knowledge
 - Work at Present (NZ Aid, SOPAC, NZ Govt)

- Always more to be done

[Availability]

- Quality & reliability
- Industry leadership; rather than just government
- Energy efficiency – main opportunity to affect availability

[Acceptability]

- A new sustainable energy culture is key
- The end consumer needs to feel more accountable
- Lead by example – on a personal & industry level
- Continual efforts towards greater public understanding & education

[Sticking Points]

- Climate change
- No easy answer
- Carbon capture technology: the Holy Grail?
- Under-developed countries dire need for access
- Cultural & language differences
- Pacific Islands under represented
- The nuclear debate
- Flash cars on show
- The engineer generator...

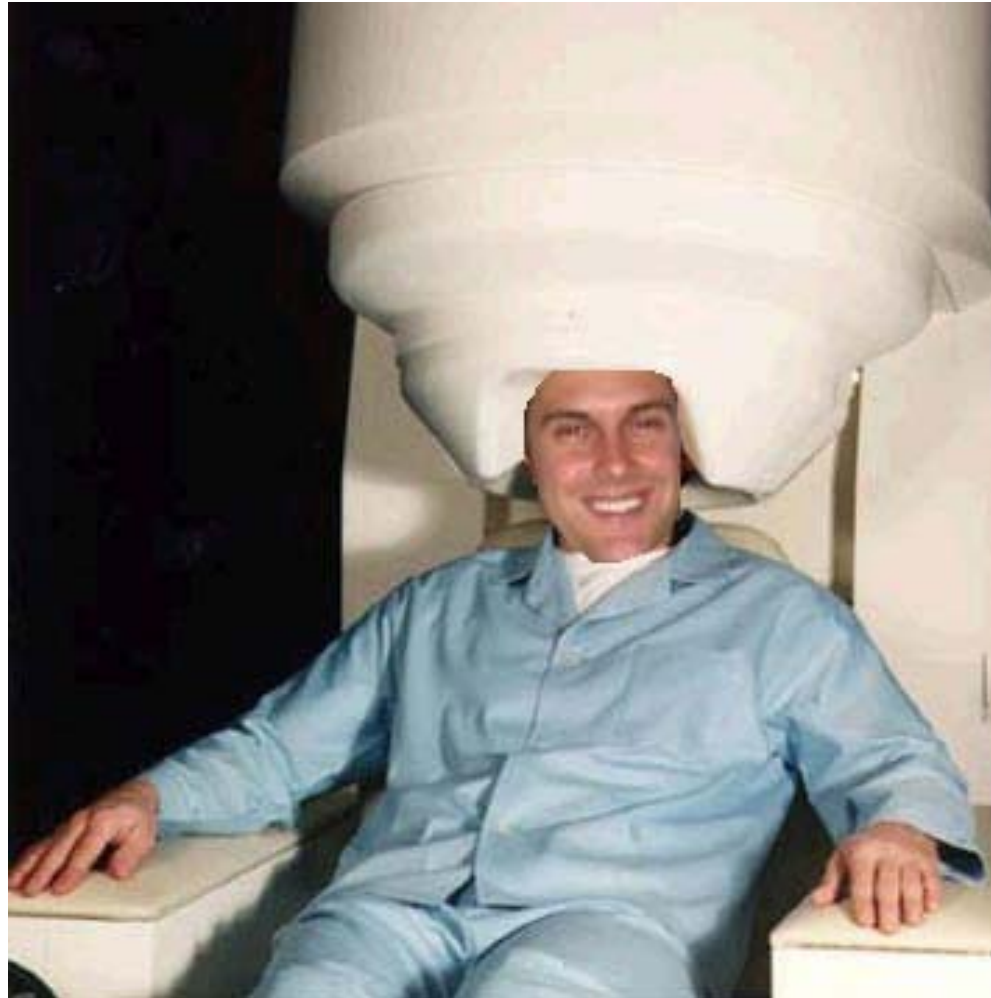

[Flash Cars]
