presents

2010 WEC ASIA REGIONAL MEETING

21-24 February 2010
Wellington, New Zealand

Dear Friends and Delegates,

I am very glad to extend a very warm welcome to all of you who will come to Wellington, New Zealand to participate in the 2010 WEC Asia and Asia-Pacific Regional Meeting.

In coming to New Zealand, WEC members will receive tremendous advantages on several fronts. Scientific meetings are all about exchange of meaningful information and the opportunity to achieve a beneficial exchange is dramatically enhanced by relaxing surroundings in a beautiful environment.

Wellington will charm you the moment you set eyes on it. A large part of the city's appeal stems from its natural setting – rugged hills rise above a busy harbour, buildings on hillsides, streets wind their way around the coast and into hidden valleys.

Wellington has an atmosphere of colour and energy that will make you feel invigorated and alive! It's a compact city – the concentrated mix of business, the arts, sports, entertainment and café society add to the city's vibrancy and appeal.

As a gateway to New Zealand, Wellington offers cutting edge facilities and is the ideal location for the Regional Meeting.

Once again, welcome to Wellington, New Zealand and enjoy the friendliest and cleanest environment for the 2010 WEC Asia and Asia-Pacific Regional Meeting.

Rob Whitney

Chair, New Zealand Member Committee

World Energy Council
